## Scholarly Interests

- Res. ■ **Exploration of Small Bodies (comets, asteroids, dwarf planets).**  
Evolution of structure and composition through dynamic processes.  
R&D of space mission architecture and instrument concepts for remote and in-situ measurements.
- Edu. ■ **Accessibility to multi-disciplinary STEM education.**  
Enabling K-12 interests through extra-curricular activities.  
Promoting critical thinking and simplified approaches to expert topics or fields.

## Education

- 2010 ■ **Ph.D., Planetary Sciences, Tel Aviv University, Israel.**  
Thesis title: *Thermal & Structural Evolution of Small Bodies in the Solar System* (10/2009 submitted).
- 2004 ■ **B.Sc. (Cum Laude), Geophysics & Planetary Sciences, Tel Aviv University, Israel.**  
Following a double physics & math major program.

## Positions

- 10/2014 to Present ■ **Scientist (Research Faculty). Florida Space Institute, University of Central Florida.**  
**Graduate Faculty Associate. College of Graduate Studies, University of Central Florida.**  
◇ Leading and guiding development of software modules for particle and grid-based calculations.  
◇ Developing observation/exploration schemes through space-based mission and instrument concepts.  
◇ Developing numerical models of thermodynamic and hydrodynamic processes in small bodies.  
◇ Leading technical reports and proposals with astronomy and planetary community partners.  
◇ Participating in educational activities within the university's Physics and Aerospace programs.  
◇ Mentoring Undergraduate student research projects and serving on thesis committees.
- 10/2012 to 10/2014 ■ **Postdoctoral Research Associate. Earth & Planetary Sciences, Harvard University.**  
◇ Developed computational tools to analyze large numerical simulations and fit to real-world data.  
◇ Led technical reports and proposals within the planetary community.  
◇ Led numerical modeling of shock physics and physical-chemical processing of comets and asteroids.  
◇ Developed simulations of large-scale shock processes during early phases of planet formation.
- 10/2009 to 10/2012 ■ **Postdoctoral Researcher. Institute for Astronomy, University of Hawai'i.**  
**Research Fellow. NASA Astrobiology Institutey, University of Hawai'i.**  
◇ Developed analysis tools for observations and data analysis.  
◇ Developed software package and numerical implementation of heat & mass transfer models.  
◇ Developed physics-based modeling and visualization to support science case and concept of operations for a space mission proposal.  
◇ Led modeling of thermal evolution for comets, active asteroids and early solar nebula composition.

## Positions (continued)

- 09/2003 – 09/2009 ■ **Teaching and Research Assistant. Geophysics & Planetary Sciences, Tel Aviv University.**  
to  
09/2009 ◊ Developed computational models for thermal and structural evolution of comet nuclei.  
◊ Developed curriculum, teaching material and evaluation tools.  
◊ Taught and organized class lectures, problem sets and term exams.

## Skills

- Programming ■ C/C++, Fortran, Matlab, Python, Shell script.  
OS ■ Linux/Unix, Mac OS, Windows.  
Web Dev ■ HTML, CSS, Git.  
Auxiliary ■ MPI, LaTex (tex, sty and cls), GIMP/Photoshop, Microsoft Office.

## Professional Activities

- **NASA Discovery Program projects.** 2010 – 2011, 2018 – Present.  
Core development team of space mission concept, science and operations.
- **NASA DART mission Investigation team.** 2018 – Present.  
Working groups on Dynamics, Ejecta and Proximity Operations.
- **LSST Solar System Science Collaboration.** 2017 – Present.  
Working groups on Active objects, Outer Solar System and Community software development.
- **NASA/OPAG Roadmap to Ocean Worlds (ROW).** 2017 – 2018.  
Working group on framework and future mission studies.
- **WFIRST Solar System working group.** 2016 – 2018.  
Science case integration and summary paper.
- **ESA-NASA AIDA mission.** 2015 – 2017.  
Working groups on Physical properties and Ejecta modeling.
- **AAS Astronomy Ambassador program.** 2015 – Present.  
Professional development in science communication and public engagement.
- **SciCoder workshop alumni.** 2013.  
Professional development training in programming, database and documentation).
- **Harvard Postdoc Advisory Board.** 2012 – 2014.  
Advancing group interests in regulations, work-life balance and health-care benefits.

## Grants

- Co-PI on **Florida Space Research Program** grant: "ARTISAN: Autonomous Real-Time Identification with Space-based Agent Nodes". 2018-2019 (\$25K).
- Co-PI on **NASA Emerging Worlds Program** grant: "Early Evolution and Survivability of Amorphous Water Ice Within Small Icy Bodies". 2018-2021 (\$322K).
- Co-I on **NASA Planetary Data Archiving, Restoration, and Tools Program** grant: "PRImitive Asteroids Spectroscopic Survey (PRIMASS): the past as a puzzle". 2018-2020 (\$160K).
- Co-PI on **NSF Planetary Astronomy** grant: "Carbon monoxide in comets". 2016-2019 (\$250K).
- PI on **Space Research Initiative** grant: "Numerical and Analytical Models in Support of Planetary Exploration". 2017-2018 (\$80K).
- PI on **Space Research Initiative** grant: "Thermal and collisional evolution of minor bodies and dwarf planets". 2015-2017 (\$215K).

## **Professional Activities (continued)**

- Co-I on internal proposal to **NASA's Asteroid Redirect Mission (ARM)**: "Assessing Thermal Shock on Rock Surface Strength". 2016-2017 (\$128K).
- Co-I on **NASA Planetary Mission Data Analysis Program** grant: "Archiving a 25-Year Ground-Based Primitive Body Imaging Dataset". 2012-2016 (\$1.15M).
- Co-I on **NSF Planetary Astronomy** grant: "Water in the Asteroid Belt: Main Belt Comet Discovery, Characterization, and Modeling". 2010-2013 (\$472K).

### **Service**

- **Journal reviews:** Nature Astronomy, Icarus, Astronomy Journal, Publication of the Astronomical Society of the Pacific, Planetary & Space Science, Meteoritics & Planetary Science, Advances in Space Research, Monthly Notices of the Royal Astronomical Society, Asteroids IV book.
- **Selection panels:** NSF, Planetary Astronomy – Panel member & external reviewer; NASA R&A – Panel member & external reviewer (Outer Planet Research, Origins of Solar Systems, Planetary Geology & Geophysics, Solar System Workings, Exoplanets Research Program, Emerging Worlds, Discovery/Rosetta Data Analysis); NASA Postdoctoral Program – External reviewer; NASA Earth & Space Science Fellowship – Panel lead & organizer.
- **Membership:** International Astronomical Union (Division C, Education & Outreach, and Division F, Planetary Systems and Bioastronomy); American Astronomical Society – Division for Planetary Sciences; American Geophysical Union (General member).

### **Meetings**

- **Science Organizing Committee:** Centaur Exploration Workshop (2019, Lead); Division for Planetary Science Annual Meeting (2018, Member).
- **Local Organizing Committee:** Centaur Exploration Workshop (2019, Lead); Active Centaurs Workshop (UCF/USF, 2017, Lead).
- **Convener:** Astrobiology Science Conference (American Geophysical Union, 2019, Lead for topical session); European Planetary Science Congress & Division for Planetary Science Joint Meeting (2019, Member for 2 topical sessions).
- **Organizer:** Planetary science seminar & journal club, University of Central Florida (2015 – Present, Chair); Astro-coffee seminar series, Institute for Astronomy, Hawai'i (2009 – 2012, Chair); Astrobiology colloquium, University of Hawai'i (2009 – 2012, Assistant); Planetary science group seminar, Tel-Aviv University (2005 – 2007, Lead);

### **Awards**

- International travel award: American Astronomical Society (2012, 2015), International Astronomical Union (2015).
- NSERC CREATE, Canadian Astrobiology Training Program (2012, declined).
- Aly Kaufmann fellowship, Technion – Israel Institute of Technology (2012, declined).
- NASA Astrobiology Institute research fellowship, University of Hawai'i (2009 – 2012).
- Research fellowship, Max-Planck Institute for Solar System Research (2009, declined).
- The Ilan Ramon commemorative scholarship, The Israeli Commercial & Industrial Club (2006).
- The Ilan Ramon & Rabbi Dasberg excellence award, Tel-Aviv University (2005).

## Synergistic Activities

- **Consultant/commentator:** Discovery channel special documentary about SpaceIL launch (2019); NPR (WMFE) story about SpaceIL launch (2019); Online radio (BlogTalkRadio) space news (2017 – 2019); Lowell Observatory asteroids science exhibit (2016); Orlando Science Center space activities (2015 – Present); MMO game development "*Age of Ascent*" (2015); BBC science series "*Horizon*" (2013); "*Discovery Magazine*" popular science section (2011).
- **Public outreach (Partial list)**
  - ◊ Orange County library programs (Adults/Teens) – Space Exploration, Physics of Superheroes. 2019.
  - ◊ Orlando Science Center, NASA @ My Library program – Exploration of asteroids and comets. 2018 (~100 ppl/event).
  - ◊ Jewish Community Center of Greater Orlando, "Hot Talks" series – Physics of Superheroes. 2018 (~30 ppl/event).
  - ◊ International Observe the Moon Night, UCF Campus, co-organizer. 2015 — 2017 (~200 people/event).
  - ◊ PechaKucha Orlando, solar system exploration presentation. 2015 (~600 people/event).
  - ◊ Orlando Science Center, Pluto exploration event. 2015 (~100 people/event).
  - ◊ Kalihi community center after-school activities, Honolulu, Hawai'i. 2012 (~10 kids/event).
  - ◊ Hawai'i State Science Fair, category judge. 2011.
  - ◊ Institute for Astronomy and Physics Day open houses, University of Hawai'i. 2010 – 2012 (~300 ppl/year).
  - ◊ Tel Aviv University Astronomy Club (voluntary activity in astronomy, physics and science towards the general public). 2004 – 2009 (~100 – 5000 ppl/event).
  - ◊ Extracurricular education for gifted children, general astronomy and the Solar system, Israel. 2004 – 2009 (~10-15 kids/class).
